

Type of the machine:

Printing machine

Model:

Heidelberg Prosetter 455 CD 102 - 5+L (number 540955)

Opis:

- The machine is suitable for printing flat flexible materials
- (paper, cardboard, foil) the maximum size 72 x 102 cm.
- The maximum thickness of the printed material 1,0 mm with CD machine
- Coater adapted only to the dispersive coating
- Printing plates 770x1030
- Rubber blanket 840x1052
- Minimum sheet size 280x420 (with AutoPlate)
- Maximum print format 700x1020 (safe 700x1000)
- Control system with control panel
- Stations on the machine:
 - a. desktop at the feeder
 - b. desktop on the lining
 - c. CPC console
- Maximum weight of input and output stack 1100 kg
- Automatic cleaning system
- The value of noise:

According to DIN 45635, sheet 27

 - a. at the feeder 83 dB
 - b. at the control panel 83 dB
 - c. during insertion 81 dB
- Maximum print speed 14500 ark/h even with cardboard
- Machine size 10,4x3,16x2,13m
- Weight about 36000 kg
- Meter per day 2010.12.10 - 18.1732.805 sheets
- We have a set of technical documentation

Year of the production:

1998

Price:

300 000 EUR netto
